

3,500 cy of dirt needed just for lake fill

275' of wood bulkhead 5' tall  
wood bulkhead provides the following:  
clean look from the road, minimizes  
cost of using earth or fill, and maximizes  
width of water

1,000 cy of dirt cut just for lake  
40,000 sf of stripping and  
50,000 sf of shaping

look at this concept with Josh  
lower landing area for visibility  
eliminate bunkers  
transplant (7) sabal palms

5600 sf

new tee 1,000 sf

transplant (4) sabal palms
